

Coolair Inc. offers sales, quality service and repair on packaged Terminal Air Conditioners (PTAC) and traditional A/C units in Manhattan. We are known for our professional, trustworthy staff that has the capability to perform service and repairs on all makes and models of Heat Pumps and PTAC Units. We also cut holes in the wall and install through the wall sleeves for all kinds of through the wall units.

Coolair Inc. would like to help you keep your Packaged Terminal Air Conditioners (PTAC) and traditional A/C units running well and efficiently. By maintaining your units, you're protecting your investments and prolonging the life of your units. We recommend that PTAC units be serviced at least twice a year, similar to changing the oil in a car to keep the engine clean and running well. By maintaining your units, it may prevent frustrating breakdowns and reduced efficiency in the future and will save you money in the long run. It can also extend the life of your units. We perform these preventative maintenances on every type and brand of PTAC units made. ***Sign up to have your units serviced ASAP since winter is right around the corner!***
